

Simmons Services have recently undertaken internal and external decoration and repairs to supported property at Bermuda Road. The work focused on areas of the building that were run down. Targeting collapsed drains and damp areas in bathrooms, Simmons delivery team were able to demonstrate their unrivalled skills when repairing the internal and external areas. External areas of ground were excavated, drains levelled and re-laid to provide safe walking surfaces for the residents at Bermuda Road.

Simmons were praised for their care when working around the residents to allow for least amounts of disruption while completing these works.

Tom O'Brien, project surveyor said 'I have had a call from Bermuda Road where you are undertaking some internal decoration and external work to a supported unit. The scheme manager is full of praise for your decorators, commenting that, they leave no mess and are no trouble to have on the scheme, so well done, please feel free to pass the comments on.'
